

Longleaf Academy: F201 Fire & Longleaf

Fire & Longleaf is designed for landowners and natural resource professionals of all experience levels and focuses on the longleaf-specific considerations when planning a prescribed burn. Participants are highly encouraged to pursue the certified burner process in their home state in conjunction with taking ***Fire & Longleaf***.

Topics will include:

- fire ecology
- burning young longleaf
- ignition patterns
- fireline tools
- smoke management
- fire weather parameters
- returning fire to long-unburned stands
- burn planning

Weather permitting, there will be a prescribed fire demonstration.
