

THE LONGLEAF ALLIANCE

Longleaf Academy: H201 Herbicides & Longleaf

Herbicides & Longleaf focuses on the herbicide choices available for the site preparation, ecological restoration, and management of longleaf pine systems. Topics will include herbicide rates, timing of application, surfactants and adjuvants, targeting and control of invasive and unwanted species, and how to preserve desirable native plants in longleaf settings. ***Herbicides & Longleaf*** will give participants the tools needed to incorporate herbicides into their forest management in order to achieve their own unique objectives.

Date:	Tuesday February 12, 2019— Thursday February 14, 2019
